Professional Summary

Full Stack MERN Developer with close to 2 years of professional industry experience building scalable, production-ready web applications. Strong expertise in MongoDB, Express.js, React.js, and Node.js, with hands-on experience in RESTful APIs, e-commerce systems, Stripe payment integrations, performance optimization, and secure authentication implementation in agile environments.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend Technologies: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Technologies: Node.js, Express.js, REST APIs, JWT Authentication, Firebase Authentication, Webhooks

Databases: MongoDB, MySQL

Cloud & Deployment: AWS S3, Docker (Basic), Kubernetes (Basic), CI/CD Pipelines, Vercel, Netlify

Tools & Platforms: Git, GitHub, Postman, Stripe API, VS Code

Professional Experience

Software Developer (Full-Time)

March 2024 – December 2025

Moshi Moshi – The Communication Company, Bengaluru

Kuku — Resale E-Commerce Platform (Production)

- Built a full-stack marketplace using Next.js, Node.js, Express.js, and MongoDB for 1000+ users.
- Integrated Stripe payments with webhooks, reducing transaction failures by 30%.
- Developed RESTful APIs for logistics, location-based, and multilingual features, improving UX by 35%.
- Created a seller dashboard with real-time earnings and automated settlements, improving efficiency by 40%.
- Optimized media delivery using AWS S3, reducing image load time by 60%.

Realistic Realtors (Production)

- Built a responsive, high-performance React.js UI, increasing user engagement by 25%.
- Integrated RESTful APIs for real-time listings and advanced search, improving response time by 35%.
- Optimized frontend performance using memoization and lazy loading, reducing page load time by 40%.

Vardhaman Admin Panel

- Developed a dynamic admin dashboard with drag-and-drop UI and a comprehensive product CMS supporting full CRUD operations.

Personal Projects

FitBuddy — Fitness Tracking Application (Live Demo) — (GitHub)

- Developed a full-stack MERN application with JWT-based authentication and a responsive React.js user interface.
- Designed RESTful APIs and optimized MongoDB queries to support real-time workout tracking and user analytics.

Smart Bookmark App — Real-Time Bookmark Manager (Live Demo) — (GitHub)

- Built a full-stack bookmark manager using Next.js (App Router) and Supabase with Google OAuth authentication.
- Implemented Row Level Security (RLS) to ensure user-specific private data access.
- Integrated Supabase Realtime subscriptions to sync bookmarks instantly across multiple tabs.
- Deployed the production-ready application on Vercel with secure environment configuration.

Education

Full Stack Web Development (MERN)

September 2023 – February 2024

Masai School, Bengaluru

Bachelor of Science in Computer Science

July 2018 – August 2021

Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU), Nagpur

Certifications

- Full Stack Web Development Certification — Masai School (With Distinction)
